

Grässlin Appoints GAVE Electro as sole agent for Spain and Portugal

St. Georgen, Germany – December 2016 - Grässlin GmbH, a subsidiary of Intermatic Incorporated (<http://www.intermatic.com>), leader in energy management solutions, announced today the appointment of GAVE Electro s.l. as sole authorized agent for Spain and Portugal effective January 1st, 2017. This is another instance of Grässlin's ongoing commitment to growth and exceeding the expectations of specifiers, distributors and contractors in the global marketplace.

"GAVE Electro is one of the leaders in the manufacturing and distribution of high quality electrical products in the Iberic Peninsula, and Grässlin recognizes the value of creating product demand through appropriate application evaluation and solution proposal provided by GAVE Electro, especially where advanced controls are required" says Oscar Ibarra, Vice President Global Sales for Grässlin/Intermatic.

"The distribution channel plays a vital part in that role and our commitment to continued global expansion is indicative of our commitment to support our distribution partners and the market in that demand creation."

About Grässlin GmbH:

Grässlin GmbH, founded in St. Georgen, Germany in 1956, shares a history of quality and innovation. Acquired by Intermatic in 2007, it contributes its internationally successful products, including time switch technology, light and temperature controls, and tariff time switches, to the company portfolio.

About Intermatic Incorporated:

With a rich 125-year company history, Intermatic has grown into a global manufacturer of control and energy-management solutions for electrical, HVAC/R, pool & spa, and OEM markets. In today's high-technology world and global economy, Intermatic values ensure quality products, technical information, and attentive service. They provide solutions in facilities, municipalities, manufacturing, agriculture, commercial, residential and construction markets. For more information, please visit www.intermatic.com.
